

## Project Design Phase-I Solution Architecture

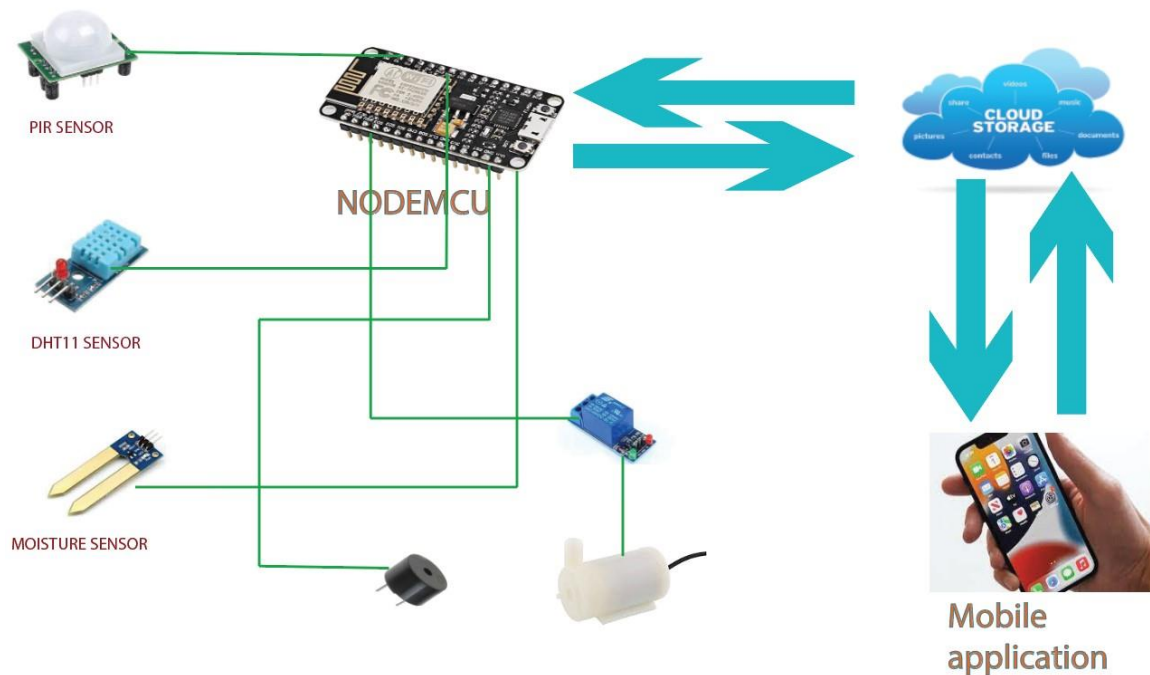

Date	18 November 2022
Team ID	PNT2022TMID22100
Project Name	<b>IoT Based Smart Crop Protection System for Agriculture</b>
Maximum Marks	4 Marks

### Solution Architecture:

Solution architecture is a complex process with many sub-processes that bridges the gap between business problems and technology solutions. Its goals are to:

- Connecting PIR Sensor,DHT11 Sensor,Moisture Sensor to NODEMCU
- NODEMCU is connected to the cloud
- From the cloud storage,it is connected to the Mobile Application.
